Index to NLGI SPOKESMAN, Vol. XXXV

April, 1971—March, 1972

Index by Authors

Arkles, B., *Solid Fluorocarbon Lubricants*, 11, XXXV, February, 1972

Barnett, R. S., *Review of Recent USA Publications on Lubricating Grease*, 6, XXXV, September, 1971

Barni, J. J., *Positive Centralized Lubrication for Mobile Equipment*, 10, XXXV, January, 1972

Bischoff, J. W., *President's Address—1971*, 9, XXXV, December, 1971

Booser, E. R., *Trends in Grease Lubrication of Electric Motors*, 11, XXXV, February, 1972

Brannen, W. T., *Laboratory Evaluation of Sulfur-Phosphorus Industrial Gear Additive Systems*, 2, XXXV, May, 1971
Co-author, D. A. Lee

Bright, G. S., *NLGI Subcommittee on Permeability — Summary of Current Status*, 4, XXXV, July, 1971

Bunting, K. R., *Statistical Studies of High Temperature Grease Life Tests*, 4, XXXV, July, 1971
Co-authors, A. Dobry, J. Gorman

Chappell, W. H., *EP and Anti-Wear Properties of Greases Containing a Complex Sulfide Additive*, 12, XXXV, March, 1972
Co-authors, S. M. Niazy, J. R. Soulen

Christian, J. B., *Depolarization of Grease Thickener Solids by Polymer Adsorption*, 6, XXXV, September, 1971

Christian, J. B., *Elasto-Hydrodynamic Lubrication with Fluorinated Polyorganosiloxane Colloidal Lubricants*, 1, XXXV, April, 1971

Devine, M. J., *Wide Temperature Range Multipurpose Lubricating Grease*, 3, XXXV, June, 1971
Co-author, L. Stallings

Dobry, A., *Statistical Studies of High Temperature Grease Life Tests*, 4, XXXV, July, 1971
Co-authors, K. R. Bunting, J. Gorman

Eldridge, H., *Lubrication and Service Requirements of 1972 Cars*, 9, XXXV, December, 1971

Gorman, J., *Statistical Studies of High Temperature Grease Life Tests*, 4, XXXV, July, 1971
Co-authors, K. R. Bunting, A. Dobry

Harting, G. L., *The Influence of Atmosphere on Grease Lubricated Ball Bearing Performance*, 3, XXXV, June, 1971

House, W. E., *The Prediction of Volatility Characteristics of Greases*, 10, XXXV, January, 1972

Jones, H. M., *Lubrication of Tapered Roller Bearings on High-Speed Trains*, 2, XXXV, May, 1971

Komatsuzaki, S., *Apparent Viscosity and Volume Fraction of Thickener of Lubricating Greases Under High Shear Rates*, 5, XXXV, August, 1971
Co-author, Y. Moniwa

Lee, D. A., *Laboratory Evaluation of Sulfur-Phosphorus Industrial Gear Additive Systems*, 2, XXXV, May, 1971
Co-author, W. T. Brannen

Lindeman, M. A., *Torque and Life Data from an R-4 Ball-Bearing Grease Tester*, 5, XXXV, August, 1971
Co-authors, N. D. Rebuck, Cooperators

Moniwa, Y., *Apparent Viscosity and Volume Fraction of Thickener of Lubricating Greases Under High Shear Rates*, 5, XXXV, August, 1971
Co-author, S. Komatsuzaki

Niazy, S. M., *EP and Anti-Wear Properties of Greases Containing a Complex Sulfide Additive*, 12, XXXV, March, 1972
Co-authors, W. H. Chappell, J. R. Soulen

Rebuck, N. D., *Torque and Life Data from an R-4 Ball-Bearing Grease Tester*, 5, XXXV, August, 1971
Co-authors, M. A. Lindeman, Cooperators

Schreimann, H. H., *The Evolutionary Grease Cartridge for the 70's*, 3, XXXV, June, 1971

XUM

Soulen, J. R., *EP and Anti-Wear Properties of Greases Containing a Complex Sulfide Additive*, 12, XXXV, March, 1972
Co-authors, S. M. Niazy, W. H. Chappell

Stallings, L., *Wide Temperature Range Multipurpose Lubricating Grease*, 3, XXXV, June, 1971
Co-author, M. J. Devine

Stephens, N. B., Jr., *Can Marketing Survive the Seventies?*, 10, XXXV, January, 1972

Sullivan, D. C., *The Role of Military Aviation Greases in Subsonic Commercial Airplane Design*, 12, XXXV, March, 1972

Verdura, T. M., *Infrared Spectra of Lubricating Grease Base Oils and Thickeners—Part I*, 7, XXXV, October, 1971

Verdura, T. M., *Infrared Spectra of Lubricating Grease Base Oils and Thickeners—Part II*, 8, XXXV, November, 1971

Verdura, T. M., *Performance of Service Station Wheel Bearing Greases in a New Low Temperature Test*, 1, XXXV, April, 1971

Yoder, A. W., *Current Trend of Industrial Gear Lubricants*, 6, XXXV, September, 1971

Index by Titles

Apparent Viscosity and Volume Fraction of Thickener of Lubricating Greases Under High Shear Rates, Y. Moniwa, S. Komatsuzaki, 5, XXXV, August, 1971

Can Marketing Survive the Seventies?, N. B. Stephens, Jr., 10, XXXV, January, 1972

Current Trend of Industrial Gear Lubricants, A. W. Yoder, 6, XXXV, September, 1971

Depolarization of Grease Thickener Solids by Polymer Adsorption, J. B. Christian, 6, XXXV, September, 1971

Elasto-Hydrodynamic Lubrication with Fluorinated Polyorganosiloxane Colloidal Lubricants, J. B. Christian, 1, XXXV, April, 1971

EP and Anti-Wear Properties of Greases Containing a Complex Sulfide Additive, S. M. Niazy, W. H. Chappell, J. R. Soulen, 12, XXXV, March, 1972

The Evolutionary Grease Cartridge for the 70's, H. H. Schreimann, 3, XXXV, June, 1971

The Influence of Atmosphere on Grease Lubricated Ball Bearing Performance, G. L. Harting, 3, XXXV, June, 1971

Infrared Spectra of Lubricating Grease Base Oils and Thickeners—Part I, T. M. Verdura, 7, XXXV, October, 1971

Infrared Spectra of Lubricating Grease Base Oils and Thickeners—Part II, T. M. Verdura, 8, XXXV, November, 1971

Laboratory Evaluation of Sulfur-Phosphorus Industrial Gear Additive Systems, W. T. Brannen, D. A. Lee, 2, XXXV, May, 1971

Lubrication and Service Requirements of 1972 Cars, H. Eldridge, 9, XXXV, December, 1971

Lubrication of Tapered Roller Bearings on High-Speed Trains, H. M. Jones, 2, XXXV, May, 1971

NLGI Subcommittee on Permeability—Summary of Current Status, G. S. Bright, 4, XXXV, July, 1971

Performance of Service Station Wheel Bearing Greases in a New Low Temperature Test, T. M. Verdura, 1, XXXV, April, 1971

Positive Centralized Lubrication for Mobile Equipment, J. J. Barni, 10, XXXV, January, 1972

The Prediction of Volatility Characteristics of Greases, W. E. House, 10, XXXV, January, 1972

President's Address—1971, J. W. Bischoff, 9, XXXV, December, 1971

Review of Recent USA Publications on Lubricating Grease, R. S. Barnett, 6, XXXV, September, 1971

GEAR LUBRICANTS

Current Trend of Industrial Gear Lubricants, A. W. Yoder, 6, XXXV, September, 1971

GENERAL

Can Marketing Survive the Seventies?, N. B. Stephens, Jr., 10, XXXV, January, 1972

NLGI Subcommittee on Permeability – Summary of Current Status, G. S. Bright, 4, XXXV, July, 1971

President's Address–1971, J. W. Bischoff, 9, XXXV, December, 1971

Review of Recent USA Publications on Lubricating Grease, R. S. Barnett, 6, XXXV, September, 1971

LUBRICATING GREASE

Additives

EP and Anti-Wear Properties of Greases Containing a Complex Sulfide Additive, S. M. Niazy, W. H. Chappell, J. R. Soulen, 12, XXXV, March, 1972

Laboratory Evaluation of Sulfur-Phosphorus Industrial Gear Additive Systems, W. T. Brannen, D. A. Lee, 2, XXXV, May, 1971

Application

Positive Centralized Lubrication for Mobile Equipment, J. J. Barni, 10, XXXV, January, 1972

The Role of Military Aviation Greases in Subsonic Commercial Airplane Design, D. C. Sullivan, 12, XXXV, March, 1972

Statistical Studies of High Temperature Grease Life Tests, K. R. Bunting, A. Dobry, J. Gorman, 4, XXXV, July, 1971

Trends in Grease Lubrication of Electric Motors, E. R. Booser, 11, XXXV, February, 1972

Wide Temperature Range Multipurpose Lubricating Grease, L. Stallings, M. J. Devine, 3, XXXV, June, 1971

Bearings

The Influence of Atmosphere on Grease Lubricated Ball Bearing Performance, G. L. Harting, 3, XXXV, June, 1971

Lubrication of Tapered Roller Bearings on High-Speed Trains, H. M. Jones, 2, XXXV, May, 1971

Performance of Service Station Wheel Bearing Greases in a New Low Temperature Test, T. M. Verdura, 1, XXXV, April, 1971

Characteristics

Depolarization of Grease Thickener Solids by Polymer Adsorption, J. B. Christian, 6, XXXV, September, 1971

Elasto-Hydrodynamic Lubrication with Fluorinated Polyorganosiloxane Colloidal Lubricants, J. B. Christian, 1, XXXV, April, 1971

Solid Fluorocarbon Lubricants, B. Arkles, 11, XXXV, February, 1972

Packaging

The Evolutionary Grease Cartridge for the 70's, H. H. Schreimann, 3, XXXV, June, 1971

Requirements

Lubrication and Service Requirements of 1972 Cars, H. Eldridge, 9, XXXV, December, 1971

Testing

Apparent Viscosity and Volume Fraction of Thickener of Lubricating Greases Under High Shear Rates, Y. Moniwa, S. Komatsuzaki, 5, XXXV, August, 1971

Infrared Spectra of Lubricating Grease Base Oils and Thickeners–Part I, T. M. Verdura, 7, XXXV, October, 1971

Infrared Spectra of Lubricating Grease Base Oils and Thickeners–Part II, T. M. Verdura, 8, XXXV, November, 1971

The Prediction of Volatility Characteristics of Greases, W. E. House, 10, XXXV, January, 1972

Torque and Life Data from an R-4 Ball-Bearing Grease Tester, M. A. Lindeman, N. D. Rebuck, Cooperators, 5, XXXV, August, 1971 ■
